

Synthetic Hydrocarbon Greases

CHARACTERISTICS

Tribolube-81 is a multipurpose synthetic grease developed for military aircraft high-speed turbine engine bearings(conforming to MIL-PRF-81322). It has excellent long life and antirust properties for service at temperatures ranging from -65°F to 350°F.

APPLICATIONS

Tribolube-81 is highly recommended for use in a wide range of industrial equipment. Use on O-rings, seals, gears, ball, roller, and plain spherical bearings.
